NOV. 24 1969

Dear Jacques,

Mr. P. Pierret

Thank you very kindly for sending me a copy of your book which I will read with interest.

I have done all I could to arrange that Paul Pierret is made available to you at an early date, but, unfortunately, we have encountered several problems. One is that Paul has not as yet firmly agreed that he will be prepared to take on an OPEX assignment and until he has done so we cannot act on the matter. The other is that the Project Manager of the College of African Wildlife Management, is rather reluctant to release Paul in the middle of the College year. Anyway, you can rest assured that we will try to transfer Paul as soon as possible after the termination of his assignment on 31 May 1970, if he is agreeable to this.

Please keep us informed about the progress that you are making.

Yours sincerely,

A. de Vos
